Customer Feedback:

- *"Thank you so much for the wealth of information you provide. I passed the Fall 2018 BCACP on my initial try. I purchased your All Access Pass, 2 exams, BCACP Bullets book and listened to your Pharmacotherapy audiobook." The majority of my prep time (spread over 2.5 months) was spent listening to your webinar like presentations while doing other activities. Closer to my exam date I did my final review by reading your BCACP Bullets book. Thanks again Eric. Keep up the great work."* – Dan T.
- *"I can't thank you enough for your BCACP review course. I can unconditionally tell you that your course was excellent."* – Virgil
- *"I just wanted to say THANK YOU so much for putting together such a fantastic program! With your help, I PASSED the BCACP. I can say without a doubt that I would not have passed on my own. I retired after almost 30 years in retail and started my own MTM business. I wanted to sit for the test to prove my knowledge both to myself and any prospective clients (since I only have a BS...not a PharmD!)"* – Pam Platt
