FDA-APPROVED INDICATIONS\* # = Age (years) approved for asthma # = Age (years) approved for bronchospasms Ⓞ = Approved for COPD Updated 1/2024

\*SABAs are FDA-approved for bronchospasms in reversible obstructive airway diseases and exercised-induced bronchospasm (EIB), except Xopenex (levalbuterol) is not indicated for EIB; Airsupra (albuterol/budesonide) is indicated as-needed for bronchoconstriction and to reduce the risk of exacerbations in asthma; Serevent Diskus (salmeterol) is indicated for EIB, asthma (in addition to an ICS), and COPD. Indications and evidence for individual agents are subject to change and geographic variability.

Ⓞ Authorized generic available  
Ⓞ Both authorized generic and branded generic available

# Thank You from Pyrls!

Like Eric with MedEd101, who has been a personal mentor, supporter, and inspiration of mine in pharmacy, at Pyrls we aim to support the safe and effective use of pharmacotherapy through educational resources that simplify information in a digestible format that is enjoyable to utilize!

We appreciate your consideration in checking out our resources and would love your input and feedback anytime on how we can make them more valuable to you!

Respectfully,  
Derek Borkowski & the Pyrls Team
